SOFTWARE & DESIGN

PORTFOLIO

Wahenga Walisema...

"The wise men said..."

HENGA

Founded in 2014 in Nairobi - Kenya, Henga Systems is an IT company that creates simple and ingenious software solutions to small and medium enterprises that makes operations much easier and more affordable.

Henga is coined from the *swahili* word *"Wahenga"* which means a group of wise men.

Our mission is to deliver exceptional products to clients and businesses that meet global standards. We aim to uplift the quality and reliability of software products created not just in Kenya, but throughout Africa.

Our Promise

Bringing your idea to life tends to always turn out to be more work than you'd expect. Building a software application is no different. We take care of you from product ideation to maintenance, managed hosting and support by equipping you with the right tools to bring that great idea you have to life.

You can read more about our journey at: *https://henga.co/about-henga/*

Wezza

Wezza
Simplified Workflows.

OUR PRODUCTS

Wezza is a Inventory and Asset management system that is designed to efficiently track, organize, and optimize inventory and assets.

Inventory Management
Create items in different warehouses, add multiple attributes to an item and auto-generate unique ID's for each. Categorize and differentiate durable & perishable items. Add SKU's, expiry & warranty dates

Orders Management
Create Sale & Lease Orders, record when items get lost or damaged. Perform inventory checks when leased items are returned. Print or email Orders

Asset Management
Create and assign assets to different people within the organization

Activity Tracking
Wezza automatically logs all activities on your inventory and orders for better auditing

Tasks Management
Stay on top of things by creating, assigning, and updating tasks.

Different User Access Levels
Manage who has access to your information
